Portfolio: Sushrutha S Kottary

SUMMARY

Aspiring Data Scientist and Generative AI Engineer with a strong foundation in Machine Learning, Deep Learning, NLP, and Data Analytics. Experienced in developing AI applications, Agentic RAG systems, and LLM-powered solutions using Python and modern AI frameworks. Skilled in model development, API integration, vector databases, deployment and MLOps, with a focus on building scalable and production-ready AI solutions.

EDUCATION

RNS Institute of Technology — Bengaluru, India
Bachelor of Engineering | CSE (Data Science) | **GPA: 9.03** — **2023 - 2027**

Expert PU College — Mangaluru, India
PCMB | **Grade: 90.5%** — **2021 - 2023**

TECHNICAL SKILLS

- **Programming Languages & Databases:** Python, R, C, SQL, MySQL, MongoDB, Firestore.
- **Machine Learning, Deep Learning & NLP:** Supervised & Unsupervised Learning, Neural Networks, CNN, RNN, Transformers, Scikit-Learn, TensorFlow, Feature Engineering, Model Evaluation, Model Deployment, MLOps.
- **Generative AI:** RAG, LLM Integration, LangChain, LangGraph, LangSmith, Vector Databases, LLM Guardrails.
- **Data Analytics:** Pandas, NumPy, Data Cleaning, Data Visualization, EDA, Matplotlib, Seaborn, Tableau, Power BI.
- **Platforms:** VS Code, Git/GitHub, Google Antigravity, Firebase, Streamlit, Render, Hugging Face, Docker, GCP.

WORK EXPERIENCE

Freelance Full Stack Developer — **Jan 2026 – Present**

- Built and deployed a responsive portfolio website for a digital marketing agency ShotNest, featuring a Gemini AI chatbot for user queries, Firebase App Check for security, and Formspree-powered contact form.
- Developed a production-ready fish delivery web application for a local fish business MacchiKart, featuring guest checkout, cash-on-delivery, order tracking and a dedicated admin portal for order management.
- Designed and deployed a portfolio website for an educational Institution BA School & College and BA ITI.
- Contributed to the development of the PDF utility web app TryMyPDF as part of the development team.
- Implemented SEO techniques using Google Search Console to improve website indexing and search visibility

PROJECTS

End-to-End Agentic RAG System (Document, Web & Wikipedia Search) | CODE | LIVE — **August 2026**

- Built a custom agent orchestrator using LiteLLM Gateway with zero-downtime failover between Gemini and Groq.
- Developed a hybrid retrieval pipeline using Qdrant, BM25, and FlashRank with in-memory conversational context management for multi-turn interactions, and evaluated performance using the RAGAS framework.
- Implemented parallel tool execution (Tavily/DuckDuckGo, Wikipedia & document search) using asyncio.gather, reducing latency by ~50% and deployed on Google Cloud Platform (GCP).

Stock Movement Reason Finder | CODE | LIVE — **March 2026**

- Built a FastAPI-based financial analysis system to identify the top 5 NIFTY100 gainers and losers using real-time market data and percentage-based price movement analysis.
- Integrated Google News and Gemini to generate AI-powered explanations for significant stock price movements.
- Developed interactive stock price visualizations using Plotly and deployed the application on Render.

End-to-End Movie Review Sentiment Analysis With MLOps | CODE | LIVE — **November 2025**

- Fine-tuned a DistilBERT model on the IMDB dataset, achieving 92% test accuracy for sentiment classification.
- Containerized and deployed the model on Hugging Face with Streamlit UI, PyTest, and GitHub Actions CI/CD.
- Implemented production monitoring for the FastAPI inference API using Prometheus and Grafana Cloud to track errors, request latency, model inference time, and sentiment prediction distribution through dashboards.

ACHIEVEMENTS & CERTIFICATIONS

- Won Best Project Award at RNSIT (PROP 2024) for Air Canvas, a Python-based gesture-controlled application.
- Solved coding problems on LeetCode and GeeksforGeeks, with hands-on proficiency in Python and SQL
- Certifications: IBM RAG & Agentic AI, AI Security: Guardrails & LLM Gateways, Generative AI with LLMs, TensorFlow Developer, IBM Data Science, Complete Data Science, ML, DL & NLP Bootcamp
