Mobile: +91 7019312151

Location : Bengaluru

## EDUCATION

RNS Institute of Technology

Bachelor of Engineering | CSE( Data Science) | GPA : 9.0

Expert PU College

PCMB | Grade : 90.5 %

Bengaluru, India

2023 - 2027

Mangaluru, India

2021 - 2023

## SKILLS SUMMARY

- **Languages & Databases:** Python, R, C, SQL, MySQL, MongoDB
- **Machine Learning , Deep Learning & NLP:** Supervised & Unsupervised Learning, Neural Networks, CNN, RNN, LSTM, GRU, Model Evaluation, Feature Engineering, Hyperparameter Tuning, Model Deployment (Streamlit, Flask)
- **Generative AI:** Retrieval-Augmented Generation (RAG), ReAct Agents & Tool, LLM Integration, LangChain, LangGraph, Embeddings & Vector Stores
- **Data Analysis & Visualization:** Exploratory Data Analysis (EDA), Data Cleaning, Data Visualization using Matplotlib, Seaborn, Tableau, PowerBI
- **Libraries & Platforms:** Pandas, NumPy, Scikit-Learn, TensorFlow, Jupyter Notebook, Google Colab, VS Code
- **Version Control:** Git, GitHub

## WORK EXPERIENCE

Data Science Job Simulation | Lloyds Banking Group | [LINK](#) July 2025

- Conducted EDA on customer churn dataset using Python (Pandas, Matplotlib) to uncover patterns and applied one-hot encoding to prepare categorical features for modeling
- Developed classification models (Logistic Regression, Random Forest, etc.) achieving ~77% accuracy
- Diagnosed class imbalance (23% churn cases) as root cause of poor recall for minority class customers.

## PROJECTS

End-to-End Agentic RAG System (Web + Document Search) | [CODE](#) | [LIVE](#) December 2025

- Built an agentic RAG system supporting PDFs, text files, and website URLs.
- Designed a ReAct agent using LangChain + LangGraph to switch between vector search, Wikipedia, and DuckDuckGo.
- Integrated Gemini 2.5 with Google AI embeddings for accurate, grounded responses.
- Delivered through a simple Streamlit UI for fast, real time querying.

Stock Movement Reason Finder | [CODE](#) | [LIVE](#) September 2025

- Built a tool to analyze NIFTY100 stock movements, identifying top gainers and losers.
- Integrated Google News RSS + Gemini AI to explain major price spikes with real-time news reasoning.
- Designed a modular backend for stock data fetching, news aggregation, and AI-based insights.
- Deployed the solution on Streamlit for real-time interactive use

Multi-Language Invoice Q&A System Using Gemini | [CODE](#) | [LIVE](#) August 2025

- Converts invoices (PDF/images) into PNG bytes for direct Gemini analysis without OCR.
- Uses Gemini 2.5 flash to answer user questions in English and all Gemini-supported languages.
- Extracts totals, GST, dates, items, invoice numbers, and vendor details.
- Built with Streamlit for fast and accurate invoice querying.

Movie Review Sentiment Analysis | [CODE](#) | [LIVE](#) July 2025

- Built a Streamlit app using a fine-tuned DistilBERT model to classify reviews as Positive or Negative.
- Achieved 92% test accuracy with robust tokenization using Hugging Face Transformers
- Displays predictions with confidence scores for better interpretability.

## CERTIFICATES

Ultimate RAG Bootcamp Using Langchain, LangGraph & Langsmith | [CERTIFICATE](#)

Generative AI With Large Language Models | [CERTIFICATE](#)

DeepLearning.AI TensorFlow Developer Professional Certificate | [CERTIFICATE](#)

IBM Data Science Professional Certificate | [CERTIFICATE](#)

Complete Data Science, Machine Learning, DL, NLP Bootcamp | [CERTIFICATE](#)
