SUMMARY

Final-year Computer Science and Data Science student proficient in Python, SQL, Machine Learning, Data Analytics, Generative AI and Full-Stack Development. Experienced in building AI applications, Agentic RAG systems and production-ready web applications. Skilled in LLM application development, databases, cloud deployment and MLOps.

EDUCATION

RNS Institute of Technology — Bengaluru, India
Bachelor of Engineering | CSE (Data Science) | **GPA: 9.03** — **2023 - 2027**

Expert PU College — Mangaluru, India
PCMB | **Grade: 90.5%** — **2021 - 2023**

TECHNICAL SKILLS

- **Programming Languages & Databases:** Python, C, SQL, MySQL, MongoDB, Firestore.
- **Machine Learning, Deep Learning & NLP:** Supervised & Unsupervised Learning, Neural Networks, CNN, RNN, Transformers, Scikit-Learn, TensorFlow, Feature Engineering, Model Evaluation, Model Deployment, MLOps.
- **Generative AI:** RAG, LLM Integration, LangChain, LangGraph, LangSmith, Vector Databases, LLM Guardrails.
- **Data Analytics:** Pandas, NumPy, Data Cleaning, Data Visualization, EDA, Matplotlib, Seaborn, Tableau, Power BI.
- **Platforms:** VS Code, Git/GitHub, Google Antigravity, Firebase, Streamlit, Render, Hugging Face, Docker, GCP.

WORK EXPERIENCE

Freelance Full Stack Developer — **Jan 2026 – Present**

- Built and deployed a responsive portfolio website for a digital marketing agency ShotNest, implementing a Formspree-powered contact form, responsive layouts, and production hosting on Firebase.
- Developed a production-ready fish delivery web application for a local fish business MacchiKart, featuring guest checkout, cash-on-delivery, order tracking and a dedicated admin portal for order management.
- Designed and deployed a portfolio website for an educational Institution BA School & College and BA ITI.
- Contributed to the development of the PDF utility web app TryMyPDF as part of the development team.
- Implemented SEO techniques using Google Search Console to improve website indexing and search visibility.

PROJECTS

End-to-End Agentic RAG System (Document, Web & Wikipedia Search) | CODE | LIVE — **August 2026**

- Developed an Agentic RAG platform using LangGraph for workflow orchestration with LiteLLM integration for Gemini and Groq model routing and automatic fallback to ensure reliable response generation.
- Implemented hybrid retrieval using Qdrant vector search, BM25 keyword retrieval and FlashRank reranking, with sliding-window memory for multi-turn conversations and Model Armor input guardrails.
- Integrated document search, Tavily/DuckDuckGo web search and Wikipedia search with parallel execution using asynico.gather, LangSmith tracing and automated CI/CD deployment to GCP.

Stock Movement Reason Finder | CODE | LIVE — **March 2026**

- Developed a stock analysis system to calculate percentage price changes across NIFTY100 stocks over a user-selected period, rank stock performance and identify the top 5 gainers and losers.
- Integrated Google News with Gemini to summarize stock performance based on recent news headlines.
- Developed an interactive Streamlit UI with Plotly visualizations and deployed the application on Render.

End-to-End Movie Review Sentiment Analysis With MLOps | CODE | LIVE — **November 2025**

- Fine-tuned a DistilBERT model on the IMDB dataset, achieving 92% test accuracy for sentiment classification.
- Containerized and deployed the model on Hugging Face with Streamlit UI, PyTest and GitHub Actions CI/CD.
- Implemented production monitoring for the FastAPI inference API using Prometheus and Grafana Cloud to track errors, request latency, model inference time and sentiment prediction distribution through dashboards.

ACHIEVEMENTS & CERTIFICATIONS

- Won Best Project Award at RNSIT (PROP 2024) for Air Canvas, a Python-based gesture-controlled application.
- Solved coding problems on LeetCode and GeeksforGeeks, with hands-on proficiency in Python and SQL.
- Certifications: IBM RAG & Agentic AI, AI Security: Guardrails & LLM Gateways, Generative AI with LLMs, TensorFlow Developer, IBM Data Science, Complete Data Science, ML, DL & NLP Bootcamp.
